It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Old Barn Publishing, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Follow along as two unsuspecting adventurers face deadly rapids, unbearable bugs, polar bears, drunken Indians, inedible food, Arctic tundra, inaccurate route maps, and much more, on their summer vacation in the Canadian Wilderness. It all begins just north of The Pas in Manitoba, Canada. The plan was to canoe 800 miles over 8 weeks, eventually heading down the Caribou River to Hudson Bay where they were scheduled to be picked up by a boat. But things didn't go quite as planned. After learning from Indians living in the area that they would very likely be killed by rapids going down the Caribou River, route changes were made to exit the area via the Seal River where they would only maybe get killed (one big problem. the canoe they rented was made for cruising big lakes with a motor, not negotiating intense rapids!!!). Upon reaching Hudson Bay, after nearly being killed-by-rapids on the Seal River, the two canoers realized that their pre-scheduled boat pick up wasn't going to show up. Instead, they found themselves surrounded by polar bears and faced with canoeing across the freezing-cold Arctic ocean, which is prone to sudden storms and has a tide that goes out as far as 12 miles twice a day. You'll wonder how they lived to tell the story, but they did, and in this book, they bring you vivid descriptions of nearly canoeing over waterfalls, being covered with clouds of black flies and mosquitoes, getting caught on huge lakes during violent thunder storms, canoeing past dead whales, and coming within inches of being vaporized by rapids. You'll find out how inaccurate government information led to under-preparation, a near drowning, and...
