CENTRAL HEATING

Alphascript Publishing Dez 2009, 2009. Taschenbuch. Condition: Neu. Neuware - A central heating system provides warmth to the whole interior of a building or portion of a building from one point to multiple rooms. When combined with other systems in order to control the building climate, the whole system may be a HVAC heating, ventilation and air conditioning system. Central heating differs from local heating in that the heat generation occurs in one place, such as a furnace room in...
