## The Transformation of Industrial Sites to Recreational Areas - in Duisburg

By Lukas Fiedler

GRIN Verlag Jan 2011, 2011. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Research Paper (Pre-University) from the year 2009 in the subject Geography / Earth Science - Demographics, Urban Management, Planning, grade: 1,8, , language: English, abstract: his essay will be about the transformation of industrial sites to recreational areas in Duisburg. This will be done by taking a closer look on the projects 'Heinrich Hildebrand-Höhe' and 'RheinPark'. These two projects were chosen because they are relatively young projects and are located in the author's hometown. For the given information concerning the two projects I mainly took into consideration current sources like newspaper articles, brochures by the city of Duisburg and articles from the Internet, mainly from news pages. Regarding Duisburg's industrial history I concentrated on books that could easily be found in the municipal library of Duisburg. The topic was chosen due to the fact that I noticed more and more recreational areas emerging on former industrial ground in my immediate surroundings. This is the reason why I got interested in these projects. I wanted to know why and how they were built in a more detailed way...
