SEAFOOD SAFETY AND HUMAN HEALTH VOLUME 7.

Science Publishers, UK, 2002. Hardcover. Condition: New. First Edition. 140 Pages. This study of plant anatomy is based on newly available data on the structure and spatial organization of the vascular system of plants. Many examples are chose from among the major groups of the plant system, to illustrate the vast field of applications of histological moulding: anatomical structures that have so far been little understood or unknown are described and hypotheses relative to the cambial functioning are presented. Following..
