This item is printed on demand - Print on Demand Neuware - Essay from the year 2004 in the subject Philosophy - Miscellaneous, grade: distinction+, Murdoch University (Institute for Sustainability and Technology Policy), course: Policy, Technology, Democracy, language: English, comment: Short essay, 1000 words , abstract: Formatting the statement: How to deal with If-Questions The statement 'Sustainability can be achieved by developing smarter technologies' can be seen as an affirmative answer to the following question: [1] If: Sustainability can be achieved by developing smarter technologies If- or respectively decision-demanding-questions allow two possibilities to answer: an affirmative and a negative one. Someone who wants to claim the proposition of the question is obliged to give a proof. Someone who wants to dispute the proposition of the question is obliged to give a refutation. To identify what such a proof or rather a refutation has to contain, it is helpful to note down the question again to show the logical structure more clearly: Is it the case, that [1 ] If developing smarter technologies then Sustainability can be achieved Obviously it concerns an implication clause, which demands further propositions that allow...
