In each chapter, the author reveals how to expose yourself to this process, and accompanies the reader step-by-step towards self-actualization in the following areas: leadership and charisma, management and negotiations, improving self esteem, overcoming the trials of life, development of intelligence, intuition and excellence, courage, sympathy for fellow man, the joy of life, improving memory skills, overcoming addictions, pain relief, self healing and healing of others, autosuggestion, positive thinking and more. Dr Haim Oron is an engineer and doctor of metaphysical science in psycho-cybernetics, researching the parallels between mechanical and computerized functioning and the human brain. Complete guideline for publication fans. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
