Operating Manual for Spaceship Earth

By R.Buckminster Fuller, Jaime Snyder

Paperback. Book Condition: New. Not Signed; Buckminster Fuller (1895-1983) was an architect, engineer, geometrician, cartographer, philosopher, futurist, inventor of the famous geodesic dome, and one of the most brilliant thinkers of his time. For more than five decades, he set forth his comprehensive perspective on the world's problems in numerous essays, which offer an illuminating insight into the intellectual universe of this renaissance man. These texts remain surprisingly topical even today, decades after their initial publication. While Fuller wrote the works in the 1960's and 1970's, they could not be more timely: like desperately needed time-capsules of wisdom for the critical moment he foresaw, and in which we find ourselves. Long out of print, they are now being published again, together with commentary by Jaime Snyder, the grandson of Buckminster Fuller. Designed for a new generation of readers, Snyder prepared these editions with supplementary material providing background on the texts, factual updates, and interpretation of his visionary ideas. Initially published in 1969, and one of Fuller's most popular works, Operating Manual for Spaceship Earth is a brilliant synthesis of his world view. In this very accessible volume, Fuller investigates the great challenges facing humanity, and the principles for avoiding extinction and exercising...
