The book is geared specifically to address the unique needs of those who provide holistic or integrative health care services, whether through their own practice or as part of a professional office or clinic. It is intended for those who want to attract new customers who actually want to buy the services you offer. It is especially good for those who would like to become a sought-after expert who can charge more than their competitors. And it is a great guide for anyone wanting to harness the power of social networking without spending a ton of cash. The concepts and approaches in this book are not theoretical or academic ideas, these are the secrets learned and proven over years of working with some of the world's largest corporations and many business owners and professionals from our smallest towns. Secrets that you can ill-afford to ignore if you intend to market yourself or your business using social networking or the internet. This guide gives a clear roadmap for how you can use social networking in your practice. It is a non-technical guide, intended for the non-technical practitioner, that cuts through the confusion and spells out the simple steps to follow to successfully grow your business using the power and reach of social networking.
