

The Fundamental Principles of Chemistry: Practically Taught, by a New Method (Classic Reprint)

Filesize: 4.05 MB

Reviews

It is one of the best ebooks. It is one of the most incredible pdfs I actually have gone through. I am just easily will get a satisfaction of looking at a composed book.

(Elisha McCullough)

THE FUNDAMENTAL PRINCIPLES OF CHEMISTRY: PRACTICALLY TAUGHT, BY A NEW METHOD (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Fundamental Principles of Chemistry: Practically Taught, by a New Method The plan of this book is, I am confident, more in harmony with the laws of thought than the chemical text-books that are in use in schools, and for teaching junior students generally. Many of these books are little more than mere compilations of unclassified facts; hence the reason is not cultivated, and consequently the science is not attained; for unless the first is reached, the second is not gained. As the student cannot be properly instructed in chemistry without having previously acquired a knowledge of the physical properties of matter and the physical forces, I have commenced with a course of physics suitable for the course of pure chemistry given in the after part of the work. In the teaching of this portion of the work the exercises, illustrations, c., have been selected to bear on the after course, and on chemical operations generally; thus, in explaining porosity, filtration is illustrated and taught practically; the collecting and storing of gases under impenetrability; the determination of boiling points, fractional distillation, c., under heat; the action of charcoal and dyeing under adhesion, c.; so that when the purely chemical portion of the work is reached the student will not be perplexed and impeded when, in describing chemical operations and chemical properties, reference has to be made to physical properties and physical forces, as he has already become practically acquainted with them. The principles, both in the course on chemical physics and on pure chemistry, are taught by experimental and arithmetical exercises and examination questions; the questions, both on physics and chemistry, which I have not...
