## THE POLITICALLY INCORRECT GUIDE TO CAPITALISM (PAPERBACK)

Regnery Publishing Inc, United States, 2008. Paperback. Condition: New. Language: English . Brand New Book. Most commonly accepted economic facts are wrong Here s the unvarnished, politically incorrect truth. The liberal media and propagandists masquerading as educators have filled the world--and deformed public policy--with politically correct errors about capitalism and economics in general. In The Politically Incorrect Guide(tm) to Capitalism, myth-busting professor Robert P. Murphy, a scholar and frequent speaker at the Ludwig von Mises Institute, cuts through all their nonsense, shattering liberal myths and fashionable socialist cliches to set the record straight. Murphy starts with a basic explanation of what capitalism really is, and then dives fearlessly into hot topics like: \* Outsourcing (why it s good for Americans) and zoning restrictions (why they re not) \* Why central planning has never worked and never will \* How prices operate in a free market (and why socialist schemes like rent control always backfire) \* How labor unions actually hurt workers more than they help them \* Why increasing the minimum wage is always a bad idea \* Why the free market is the best guard against racism \* How capitalism will save the environment--and why Communist countries were the most polluted on earth \* Raising taxes: why it is never responsible \* Why no genuine advocate for the downtrodden could endorse the dehumanizing Welfare State \* The single biggest myth underlying the public s support for government regulation of business \* Antitrust suits: usually filed by firms that lose in free competition \* How tariffs and other restrictions protect privileged workers but make other Americans poorer \* The IMF and World Bank: why they don t help poor countries \* Plus: Are you a capitalist pig? Take the quiz and find out! Breezy, witty, but always clear, precise, and...
